2a

1a

A diagram showing a curved structure with a central junction. The structure is divided into two main sections, 1a and 1b, by a vertical line. Section 1a is on the left and section 1b is on the right. A central junction is marked with an 'X' and labeled 2b. The structure is composed of two parallel curved lines, one thicker than the other. The thicker line starts at the left edge, curves downwards, and then curves upwards towards the junction. The thinner line follows a similar path but is slightly higher and more curved. The junction is a sharp point where the two lines meet. The labels 1a, 1b, and 2b are positioned around the structure. 1a is on the left, 1b is on the right, and 2b is at the top center. The diagram is enclosed in a rectangular frame.

2b

1a

1b

A diagram showing three curves within a rectangular frame. The top curve is a straight line with a positive slope. The middle curve is a smooth curve that starts at a low value on the left, dips slightly, and then rises with a positive slope. The bottom curve is also a smooth curve that starts at a low value on the left, dips slightly, and then rises with a positive slope, remaining below the middle curve. Labels '1b' and '1c' are on the left and right sides, pointing to the middle and bottom curves respectively. Label '2c' is at the top left, pointing to the top curve.

3a

2a

A diagram of a trapezoid with a horizontal top edge and a horizontal bottom edge. The top edge is shorter than the bottom edge. A diagonal line runs from the top-left corner to the bottom-right corner. The bottom edge is labeled '2b' with an upward-pointing arrowhead. The top edge is labeled '4b' with a downward-pointing arrowhead. The left vertical edge is labeled '3a' with a rightward-pointing arrowhead. The right vertical edge is labeled '3b' with a leftward-pointing arrowhead.

6a

The diagram shows a curved, semi-circular component. A thick black line represents the outer boundary, and a thin black line represents the inner boundary. A small crosshair symbol is located at the top-right corner of the curve. Three labels with leader lines point to specific features: '4a' at the bottom-left, '5a' on the right side, and '6a' at the top.

Mod. 6
✂
↓

A diagram showing a region bounded by a vertical line on the left, a horizontal line at the bottom, and a curved boundary on the right. A thick black line runs from the bottom center towards the right, curving upwards. A thin black line runs from the bottom left towards the right, curving upwards. A label '5e' is on the left with a triangle pointing right. A label '6f' is at the top with a triangle pointing down. A label '4f' is at the bottom right with a triangle pointing up.
